

Starting Friday, May 15 Eastview mall can begin offering a curbside pick up option to customers. While the mall is not open to shoppers, they may order from you and pick items up outside at designated pick up locations.

Eastview will have two designated Curbside Pick Up spaces at each of our six entrances. The signs look like this:

Curbside pick-up hours will be limited to Monday – Saturday 11am-7pm and Sunday 12pm-6pm. Restaurants with exterior entrances may continue to offer curbside pick up on their current schedule.

Please see the map below to determine which entrance is best for your store so you can direct your customer to that location. Please advise your customers to remain in their vehicles and to contact your store upon arrival. This map is also available on our website.

Please look for marked doors for you to enter and exit the mall. As the mall is closed to general traffic, not all doors at each entrance will be unlocked. You must use designated mall doors and spaces for this program, no curbside is to be conducted out of back doors or hallways.

You are encouraged to adhere to all recommended CDC guidelines when interacting with customers.

Until further notice employees working at the mall will continue to park near the Food Court and enter the mall using the security doors. You must also check in and out with security.

You must e-mail Eastview Marketing Director Wendy Roche at wroche@wilmorite.com if you wish to participate in this program. You may contact her for any questions regarding this program as well.
